theTARCinc will be participating in the WIA John Moyle Memorial Field Day weekend from Friday 20th to Sunday afternoon 22nd March at the Mount Fox Campgrounds, 2944 Mount Fox Rd, Mount Fox QLD 4850.
Location 18.817485°S 145.794824°E Maidenhead Grid QH21VE53JT Elevation 630metres
To Ingham CBD Direct 42.3km 064°T by road 63.1km approx. 1hour
To VK4RAT Mt Stuart Direct 119.3km 119°T
To Deeragun Lights by road 159km approx. 2hours 5minutes

Portable operation is the go so make sure you bring plenty of batteries and whisper quiet generators if you can.

The campsite features :

Huge grassy open space next to a lagoon (part of Michael Creek) that has abundant bird life plus very tall trees, topography ideal for vertical radiators and tree supported wires.
Basic toilets, cold shower and a covered camp kitchen.
Dog friendly area, no mains power, a view of the nearby extinct volcano called Mount Fox.
Accessible to motorbikes, RVs, camper trailers and caravans.
Mobile Phone coverage is by the Telstra 4G low capacity base in Oak Hills Road, approx 2km from the campsite.
\$10 donation per night per vehicle to the local chapter of the Rural Fire Service whose members also maintain the facility in pristine condition.

Accessing the campsite via road :

From the Deeragun traffic lights drive on the Bruce Highway for 95.6km to the Lannercost Street lights at Ingham. Do your final shopping and fuelling up in Ingham before travelling on.

Left turn onto Lannercost Street, proceed 8km along Abergowrie Road to Trebonne.

Left turn onto Stone River Road, proceed 18.9km and right turn near Upper Stone to stay on Stone River Road.

Proceed 6.7km then Right turn onto Mount Fox Road.

Proceed up Seaview Range for 28.8km then turn right into the campgrounds.

Ensure while you travel up and down the range to maintain a radio watch on UHF-CB CH40 and travel with caution as there are many bends, steep climbs and descents and narrow points on Mount Fox Road. There are call points along the road at the most hazardous locations and it is highly recommended that you call at the points to ensure other vehicles know you are on the road.

Equipping for success :

Logging for the event will be done by a dude that can type using a 12V powered netbook running N1MM logger with the WIA Multiple Operator User Defined Contest File, there will be lots of antennae lofting and tweaking, operating on HF, VHF & UHF in a location that can be used what ever weather is happening plus plenty of chances to kick back and socialise.

Some essentials to bring :

Food, Drink, condiments, toilet paper (donate some extra rolls), washing up gear, portable shelters, comfy chairs and beds, portable lighting - plus your radios, batteries, generators & fuel, antennas and the height acquisition kit.

Hope to see you there - come rain or shine !

JMFD Rules and resources are available on the WIA National Website - look under the members section at Contests.

- Curly Wind Season is happening now. Be prepared.

Have you checked your shack and your antenna to see how they will go during the wet season ?

Have you stocked up, charged batteries and are ready for action !

Get on air - scare the spiders and lizards out of the rig and make sure your transciever works.

- WICEN VK4 NET

Operators interested in maintaining reliable contact in case of infrastructure failures in Queensland hold a net every Sunday.

The net happens on

14125kHz from 8-00am (2200UTC)

10122kHz from 8-00am (2200UTC)

7105kHz +/- QRM from 8-30am (2230UTC)

The net control station calls in regular stations and then invites new stations to call in.

If conditions are poor other relay stations will attempt to assist contacts. If conditions are very poor Net Control might move the net another frequency (including 3600kHz) depending on how responsive the net participants are.

Mix it with other operators, be ready to assist and call in on the net !!

Emergency Frequencies per IARU region - active during disasters

IARU Region 1 3760 7110 14300 18160 21360 kHz

IARU Region 2 3750 3985 7060 7240 7275 14300 18160 21360

IARU Region 3 3600 7110 14300 18160 21360

VK is in Region 3.

Frequencies noted are centre of emergency activity which could extend +/- 20kHz.

Other frequencies could be activated on a per country basis - stay tuned to the WIA News for activations.
